BEATTY'S TOUR OF THE WORLD.  
Ex-Mayor Daniel F. Beatty, of Beatty's Celebrated Organs and Pianos, Washington, New Jersey, has returned home from an extended tour of the world. Read his advertisement in this paper and send for catalogue.

# BEATTY

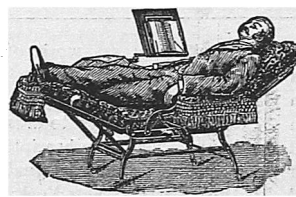

Dear Sir:—We returned home April 9, 1899, from a tour around the world, visiting Europe, Asia, (Holy Land), India, Ceylon, Africa (Egypt), Oceania, (Island of the Seas,) and Western America. Yet in all our great journey of 35,974 miles, we do not remember of hearing a piano or an organ sweeter in tone than Beatty's. For we believe we have the sweetest toned instruments made at any price. Now to prove to you that this statement is absolutely true, we would like for any reader of this paper to order one of our matchless organs or pianos, and we will offer you a great bargain. Particulars Free.

Satisfaction GUARANTEED or money promptly refunded at any time within three (3) years, with interest at 5 percent, on either Piano or Organ, fully warranted ten years. 1870 we left home a penniless plowboy; to-day we have nearly one hundred thousand of Beatty's organs and pianos in use all over the world. If they were not good, we could not have sold so many. Could we? No, certainly not. Each and every instrument is fully warranted for ten years, to be manufactured from the best material market affords, or ready money can buy.

Church, Chapel, and Parlor Organs. Grand, Square, and Upright Beautiful Wedding, Birthday or Holiday Presents. Catalogue Free. Address Hon. Daniel F. Beatty, Washington, New Jersey.

Ceiling in Fire-Proof Stereo Relief.

A Dado in Fire-Proof Stereo Relief.

Wall Filling, Dado and Frieze in Fire-Proof Stereo Relief.

### The Stereo Relief Decorative Composition.

THE Stereo Composition can be moulded into an infinite variety of artistic forms, in pure white or in tints, and can be gilded, silvered or bronzed, thus readily reproducing or duplicating any desired design furnished by architects or decorators. This substance contains no oil, white lead, or other inflammable material, and is absolutely fire-proof and sanitary. It is not affected by contact with water or by any sudden change of temperature.

Its expense is less than that of any other artistic decoration, and it fully equals the best in beauty, while it surpasses all others in the essentials of Strength, Lightness, Adhesiveness and Non-Inflammability.

It is admirably adapted for the decoration of churches, theatres, public halls, hotels, restaurants and private residences; and, as a substitute for paint, paper, frescoing, kalsomining or other hard finish, it is infinitely more economical—quality and durability being considered.

### Stereo Relief Friezes, Dadoes, Panels, Etc.

The Company has always on hand a large and elegant assortment of friezes, wall fillings, borders, panels, dadoes, rosettes, etc., etc., in relief, manufactured from its Stereo Composition. This material is far superior to papier-maché, or plaster; is light, but strong and substantial, and admits of the application of any desired style of ornamentation. These decorations, embracing entirely new designs, are made in very high, as well as low relief, and are readily and safely handled.

Your attention is especially asked to the fact that our work is complete before it is sent out from our factory, and can be put up by any workman in the decorative trade, thus enabling our patrons who are at a distance to render perfect satisfaction to their customers.

The high relief in which this new composition can be produced forms one of its prominent features, an elevation of six or eight inches being as readily shown as one of half an inch. And, as the material is cast in flexible moulds, a perfect under-cut—that great desideratum of artistic relief work—is obtained with ease. In representations of heads and figures, a life-like resemblance is effected; and architectural details are also followed with a similar fidelity; while in fruits, vines and flowers, the grace, beauty and pose of nature are retained, and the stiffness and preciseness of stamped work, such as the Lincrusta-Walton or papier-maché, are avoided.

In conclusion, we claim that there is a great public need of productions such as ours, and we believe that, in our new material, we have reached the desired point of perfection.

Pre-eminent in all elements of decoration, and its development and practicability established beyond peradventure, we most respectfully ask your co-operation in the ultimate establishment of the Stereo Relief Decorations as a leader for all kinds of wall and ceiling ornamentation.

We invite correspondence, and, having no fear of competition, shall be glad to furnish estimates promptly. Personal inspection of our work is solicited, as well as a visit to our factory and salesroom.

**To Clean Morocco Leather.**—Strain the leather well over a board, and scour with stiff brush, using tepid water and soft soap, made slightly acid, as follows:—Get a pennyworth of oxalic acid and use a fourth of it only; dissolve in two quarts of water (if it is any stronger it might take the color out); when done, unstrain leather, and dry it in a cool place. Do not saturate the leather, but keep the board on an incline; when dry rub a little oil over the surface lightly with a rag.
